

CO₂ Refurbs

Our high quality CO₂ aluminium refurbished extinguishers using our 20 Step recycling process restoring the original cylinders to as good as new. Frost-free horns for 2Kg and hose and horns for 5Kg can be bought separately.

Key Benefits

- Manufactured using high quality architectural standard paint
- Aluminium cylinders – lighter than steel equivalent and lower risk of corrosion
- Recycling capability
- Refunds for return of cylinders at end of life (see Cash for Cans)
- Boxed for safe transportation

| Code | Description |
