COMMANDEREDGE

WET CHEMICAL FIRE EXTINGUISHER

A wet chemical fire extinguisher is specifically designed for use on Class F fires (cooking oils and fats), making it the ideal solution for the demands of commercial kitchen and canteen environments. This type of extinguisher works by creating a foam-like layer on the burning oil or fat, cooling the fire and suffocating the flames.

The new CommanderEDGE 3ltr Wet Chemical Fire Extinguisher features a PFAS free extinguishing agent and is an exceptional powerhouse for its size, boasting an 8A 75F fire rating. It's also now Kitemarked to BS EN3!
